

Pricing/Hosting

Will need a server and a host for the website.

Jea13

Hosting services

- Github pages
- Pageclip (GH pack)
- Namecheap? (GH Pack)

Jea13

Domain services

- Github Pages
- Namecheap
- Name.com (GH Pack)
- .tech (GH)

Jea13

Design of website?

Needs to be simplistic & easy to access on both mobile and desktop clients.

Jea13

Ways to host images of maps

- PDF file for each building's maps
- Website w/ images for each building

Jea13

Background should be a light grey

- easier and more aesthetically pleasing to the eyes
- provides a visible seperation between background/margin and maps/text

Jea13

Layout should be mostly uniform across pages, need to establish or use a common design system

- IBM Carbon
- Atlassian
- Github Primer

Jea13

The Maps???

Scan / acquire digital maps already in campus buildings:

- Russell House
- Thomas Cooper
- Coliseum
- more?

Jea13

Call University about obtaining floor plans or already existing maps for buildings

- Find out what department makes maps / has floor plans
 - maintenance?
- get a mentor?
 - more leverage w/ the university to obtain / work with

Jea13

Make priority list of buildings to map

Jea13

How to get feedback?

Google Forms.

Jea13

How to spread website usage?

Place posters across campus w/ qr codes/links

Jea13

maybe integrate w/ USC website?

- would have to ask IT & Network Infrastructure

Jea13

Spread the idea by word across campus, given enough usage and usefulness

Jea13

Hand out small slips during semester changes in major places or in popular/confusing class buildings
